J. C. Bailey Resigns Position As L. C. Dean

Dean J. C. Bailey has resigned, effective June 15, 1960, Dr. Henry expressed much regret in accepting the resignation, saying that Bailey's resignation had made a satisfactory and significant service to our college. It is with much reluctance that we see him go.

Dean Bailey, who was senior special hazards engineer at the Gascoke Diffusion Plant of the Atomic Energy Commission, has expressed the desire to return to his home in Floydsburg, Tenn.

"In many respects, it was with deep regret that the decision was made to return to my position," Dean Bailey says. "I came to LaGrange College because it is an honor to be associated with such a strong liberal arts college and in so doing, it remains with me. All my associations with the administration, faculty, and students have been most pleasant and I have the warmest personal regard for all." (Continued on Page 3)

Dean Bailey Resigns

The announcement last week of Dean J. C. Bailey's resignation was greeted with a good deal of regret by the LaGrange College student body. His decision to return to his scientific work at Oak Ridge was a sad one for everyone here.

Dean Bailey has done an excellent job on the campus this year. Both as an administrator and as a teacher, he has accepted his task with enthusiasm. He has had the respect and admiration of all the students, due in no small part to his sense of fairness and head-on approach in any situation.

Students have felt as much sadness as the news of Dean Bailey's resignation as they had previously felt joy at the news of his coming. It is with regret that we see him go.

It is our hope that a man of equal capabilities can be found to succeed Dean Bailey, but this is not an easy task for the administration and trustees.

The new dean must be able to fill big shoes, since we have been accustomed to capable leadership from the dean's office for many years.

In conclusion, we offer Dean Bailey our good wishes as he returns to his former position. He will surely be missed.

HOLIDAYS?

Representing the SGA Council, Sylvia Cowan and Jimmy Triece will meet with Dean Bailey at 4:00 today in an effort to delay the return date after Christmas holiday. They hope to get the message across that regarding your opinion be heard on the problem.

Fun and sportsmanship should radiate from the games instead of contention and anger. Teams should be matching each other's ability instead of vying for wins since they are out there for a good time and because they like to play ball. This is not aimed at any one group, but to every boy on the hill who knows and understands what I'm talking about.

If we can't have a good time and be good sports it seems senseless to hurt feelings and lose friends over such a small matter. This is not aimed at any one group, but to every boy on the hill who knows and understands what I'm talking about.

This second day on campus, the jealousy of All Automatic came to an overpowering surge. Ogile, who had developed quite a case of nervios, was admiring her reflection in the soup. Miss Automatic grabbed Ogile, gave her a quick kiss on the lips, and sat down in the soup, and threw on the floor. Miss Dilley carried Ogile to the infirmary. The nurses put Ogile's feathers and the meticulous efforts of the infirmaries and numerous earings. Ogile's tattoo faded. All, "Alice" for short, was restricted. Ogile was all unwell.

On the second night, the watchmen again sighted the mysterious figure in the garden. Mr. Oversash cornered the white figure in the bowling pin and Smith. He turned out to be Ham's father, who was trying to sneek into the country without a passport. He worked over Uncle Trice, and asked Miss Dilley whether she thought it was really her dog, or a rat. Miss Dilley didn't look like any rat that he'd ever discovered.

Things were too much for the exchange family. The jealous All and Claire were killed by a rock-and-roll dance in the Little Store. Leaving the way clear for Ham and the now-recovered Ogile to be married in the Little Chapel by Dr. Melson.

At last Ham got his degree, but was converted from soccer to footy. He and Claire were killed by a rock-and-roll dance in the Little Store. Leaving the way clear for Ham and the now-recovered Ogile to be married in the Little Chapel by Dr. Melson.

**Chit Chat -**

(Continued from Page 2)

Ogile was strongly attracted to this tattooed maiden, who bore the inscription "I'm wild about the NICE" across her forehead. She was also wild about Ham Lett.

This second day on campus, Ogile, who began so early, was quite an eventful one for the leagued Thallandese. Since the science department was observing National Dissection Week, the foreign guests were invited to a demonstration lecture in the Permal O. C. Library. During this lecture, Dr. Shipley handed Ham a dissection kit in order that he might be ready to work on his hand. He worked over Uncle Polonius, who was chaseding All Automatic behind the tapestry. Ham shouted, "what, ho! A rat!" Dr. Shipley reported that Polonius didn't look like any rat that he'd ever discovered.
