Dr. Jennie Lee Epps was so much a part of this place that it is hard for any who know her in the college's existence to pass on with her. As with a work of art, the world cannot yield up a replacement for Dr. Epps.

She was a building for her," someone said when the news of the great teacher's death was reported. But a building is not enough. Her monument will stand in the hearts of many students and fellow professors.

For almost thirty years Dr. Epps gave of her life to LaGrange College and to her students. For most of those years she carried the burden of the English instruction almost single-handedly. In addition, she kept a watchful eye on each new SCROLL and QUADRANGLE.

Another step toward the long awaited student - administration understanding of one another has been taken.

With the new student government having been in office only a little more than a month, the LaGrange College administration has pledged full support and backing. This is a gesture which all student governments have been given and with which no student government of this college could ever get along without.

In the young guns by the school administration has done everything in its power to help in every way, the understanding of the two government. No need to say this help has been more than useful and necessary it has been one of the utmost value in aiding the school government help to the student. The administration is always on the ready and when prepared steps it comes to helping the student by himself or herself through the student government.

Last year's student government student government I was not sure of. I am not sure of many things in the line of help to the student and therefore I will not go into the school as a whole. Each time they understand.
Mary Ann Wages
In Shaw Play Lead

A vicious rumor has been circulating about the campus that Miss Mary Ann Wages is pertaining Pygmalion in the forthcoming play by the same name. That rumor is false! If you remember your archeology you'll realize that Pygmalion was a beautiful statue and the one in love with her.

The play PYGMALION by Bernard Shaw is the story of an English grocer's wife, Eliza, who is coached by two phonetics professors, Henry Higgins and Col. Pickering, and comes off as a Hamlet princess.

The Broadway hit "My Fair Lady," was adapted from "Pygmalion," and music for the play may be used in this production. Mary Ann, who will play Eliza, is a singer within Winder, Georgia. Her major interests are speech and drama, and "Pygmalion" is her senior play. When asked why she chose this particular play, she laughed and said, "I don't know. I just liked Bernadette Shaw!"

Rehearsals for the play resume this week, and stopping over the summer quarter will be held.
