Three representatives of the LaGrange Area Civil Defense Office met with top faculty members and students last night, October 24th, to discuss plans for shelter and provisions in the event of an emergency stemming from the present Cuban situation.

The Civil Defense men stated to begin with that LaGrange and Troup County are the safest places in this area of Georgia and Alabama for protection from fallout. This is a very important fact to remember. It was determined through mock tests involving the prevailing winds and considerations given to terrain, climate, rainfall, etc.

IN THE EVENT OF AN ATTACK, the representatives said that the following measures should AND MUST be taken:

As determined by a Central Committee headed by Dr. Henry, the following places on campus are adequate as shelter areas. Students are assigned to these places:

- THE BASEMENT OF THE DINING HALL: ALL GIRLS, Dorm & Town
- THE BASEMENT OF TURNER HALL: All RESIDENT BOYS
- THE LOCKER ROOMS OF THE GYM: FACULTY FAMILIES AND TOWN BOYS

The signals for the attack will be given by the area air raid siren and possibly the Callaway mill whistles. The signals are as follows:

- A three to five minute warbling siren or short blasts on the mill whistles: TAKE COVER IMMEDIATELY!!
- A three to five minute STEADY whistle: TUNE 1240 kc on Conelrad for information AND THEN PROCEED TO THE DESIGNATED PLACES.

A STRICT police force of SGA members and faculty members will be maintained. It is imperative that you remember that the only way to survival IN THE EVENT OF ATTACK is through COOPERATION.

The CIVIL DEFENSE people mentioned a list of necessary items to be taken to the designated areas with you. These are the items:

- BLANKETS
- A TRANSISTOR RADIO WITH GOOD BATT.
- PILLOWS
- A FLASHLIGHT WITH GOOD BATTERIES
- TRASH CAN
- Food and water will be provided.
- USEFUL MEDICINE
- Supplies should be on hand AT ALL TIMES.
- Everyone MUST be ready to help. COOPERATION IS ESSENTIAL if survival is to be achieved.

SPECIAL COLLEGE MEETING AT 10:00 AM. BE THERE!!!!
