The winter play, THE SCHOOL FOR HUSBANDS, is from the pen of Jean Moliere.

The LaGrange College production is an adaptation by Arthur Goodenham and Lawrence Laugher.

Jean Baptiste Poquelin, known as Moliere, is considered one of the world's greatest comic authors. He is noted for his character comedies, in which he ridicules a vice or type of excess by caricaturing a person having the trait.

EXECUTIVE MACHINERY EXPLAINED BY PRESIDENT

LOWERY TILSON

When the candidates for the Executive Body for this year were announced last Thursday, many people really or exactly what was involved. For this reason, I shall try to relate the procedure that is followed from the time of the nominations to the time of installation.

The Constitution of the Student Government Association states the time for nominations and elections as well as naming the groups that handle the nominations. Members of the present Executive Committee, seniors members of the Judicial Council, all of the class presidents and the Dean of Students serve as the nominating committee with the president of the student body as chair. This group must meet and nominate two candidates for each office of the Executive Committee. A list of eligible students has been compiled and the nominations three weeks prior to the date for the election are bound to close.

Usually, the nominating committee convenes and goes through a list of all the students at LaGrange and places those who they feel are deserving and eligible. At several meetings after the initial one, the names list which was compiled is trimmed to two candidates for each position. After nominees are selected they are contacted by the Student Body President and given a chance to accept or reject the nominations. If the person rejects the nomination, an alternate is picked by the committee.

Any additional candidate's name will be placed on the ballot when a nomination has been presented to any member of the nominating committee within one week following initial nominations and the committee has checked and formed the student qualified for the office.

Following the acceptance of nominations by all candidates, three weeks of campaigning take place and then the election.

Immediately after the poll is closed, the Executive Committee counts the votes and posts the result of the voting. Election is by simple majority of the votes cast, if, however, a candidate does not receive a majority vote, a runoff election between the two concertes who received the greatest number of votes for that office is held on the following day.

HAPPINESS

BY JOHN LANTZ

Lately there have been jokes, cartoons, and even books about WHAT HAPPINESS MEANS. The cartoonist, Charles Shultz, wrote a book of cartoons about happiness and what it means to some people. He also has included a series of cartoons于一体的TRIP, PEANUTS, several of these happiness cartoons.

These cartoons have started people thinking again about what happiness means to you when you come to think about it when it comes your way. Although it might seem a big joke to just sit down and think of things that would make you really happy, you will not only recognize it when it comes but you will also consciously work for it instead of wondering similarly around looking for something to occupy your time.

Happiness is the goal of everyone in the country. In America happiness means no less than $15,000 a year, a 40,000 house, and driving those used cars every year. Some Americans have even used money more easily.

Personally, I consider a short time in the cafeteria, Happiness is having a back scratcher. Happiness is having the- form quiet after 1:00 P.M. Happiness is being enough copy for this newspaper. Happiness is swimming on a beautiful moonlit night. Happiness is doing something constructive. Happiness is having a friend that I can write to. Happiness is knowing the answer to a question when it is asked. Happiness is watching a beautiful sunset. Happiness is writing a stupid editorial. Happiness is getting a date with the right girl for a big dance. What is happiness to you?
