Report Suggestions

put into practice

BY: ARTHUR DEWAR

This year the administration will give much attention to the survey report of the University Senate of the Methodist Church. This greatly respected group composed of national- ly known educators is the oldest accrediting agency in the nation, older than the regional accrediting agencies. In a survey conducted last year this group studied every aspect of LaGrange College and issued a thorough, booklength report containing its observations and constructive criticisms in a letter to Dr. Henry, Dr. Myron Wiles, General Secretary of the University Senate, pointed out that for a school of its size LaGrange College has progressed remarkably in the last twelve years. LaGrange has more than doubled the size of its facilities.

Dr. Henry regards the implementation of the suggestions in the report as the next major step in a continuing plan for the betterment of LaGrange College, a special committee headed by Dr. Shirley has been appointed to apply the suggestions of the report to specific instances. Action taken in accordance with the report will concern new construction and equipment; teachers’ salaries, qualifications, and benefits; the duties of the faculty, the administration, and the student body, respectively; the physical education department, admissions; final rating; the library, and the many other facets of an operating college.

The results of this work will be presented at the next Board of Trustees’ meeting on Oct- ober 28, where definite action will probably be initiated.

The very thoroughness of the report and the following plans for improvement rule out the appearance of any drastic changes around the campus. The suggestions of the report would be followed over a number of years creating a state of constant improvement in our school.

Religious Meetings

Bible meets Thursday from 6:30 to 8:00 in the Simpson Room. The Newman Club will meet in the rec- tory of St. Peter’s Church at 7:00 p.m. The Westminster Fellowship will meet in Mr. Dutsher’s office at 7:00 p.m. The Canterbury Club will meet at 7:00 p.m. in the Bailey Room. The Wesley Fellowship will have an informal get-together for Methodist students only so that they may get acquainted with each other.

Religious meetings will be open to all students in the future, however.

Rush Regulations

BY: BETTY BOLLINGER

The purpose of Punahellican Council is to coordinate the activities among fraternities and sororities on the hill. Representatives from each social organization are chosen to represent their club each year, and they, in addition to sorority and fraternity presidents, compose the Council.

Punahellican governs all rush proceedings, which have been changed for the coming year. All freshmen must attend all four formal rush parties. The first two will be the Punahellican informal dance Friday, September 30, at 8:00 p.m. at the Armory. This will be followed by one open weekend, three closed weekends for individual sorority and fraternity parties. These are Octo- ber 8-Alpha Phi Beta Sorority and Gamma Phi Alpha Fraternity; October 15-Kappa Phi Delta Sorority and Pi Delta Kappa Phi; October 22-Kappa Alpha and Kappa Theta. Respective representatives of these organizations will have the primary responsibility for the rush period. There will be no formal parties for the first two weekends. The third weekend will have four formal parties including the Alpha Phi Beta-Gamma Phi Alpha at 8:00 p.m. on Monday night; the Kappa Phi Delta-Pi Delta Kappa Phi at 8:00 p.m. on Thursday; the Alpha Delta Pi-Sigma and Delta Phi at 8:00 p.m. on Friday; and the Kappa Alpha-Kappa Theta at 8:00 p.m. on Saturday. The rush period will be extended so that rushes will be able to know the individual Greeks better and so that rushes will be better known. A formal dress will be held toward the end of winter quarter at a time set by individual groups. At that time pledges who fulfill their pledge obligations and who are not on probation will become full members.

Some rats got so carried away that......
this year. You don't have to tell anybody private things they would like to accomplish.

Actually there is plenty of "action" for everyone, but there are very few people willing to take the responsibility of doing something, anything. Most of us wear ourselves out being countless hours every day figuring out ways of escaping the necessity of doing something.

The beginning of each year brings with itself new lofty goals for everyone. Everybody comes to school thinking about all the things he or she will accomplish. Most of us procrastinate and put things off until suddenly we are faced with the fact that another year has gone by, and really do something this year? Why not about them, just go out and accomplish what you want to do with yourselves.

There seems to be a trend getting started among students that to get involved is an "un-cool", and to show any interest or emotion is just plain unthinkable. The result of all this is that every day there are more people who are bored to death with each other and themselves. Lifeless masks are all over the place showing just what is inside the person wearing them: nothing.

"I think ratting is one and when it's carried too far." Dick Lowery - freshman

"It can be a good thing if it is done in the right way." Alice Harper - sophomore

"I'm not in it!"

It's a lot of fun as long as "head-filling" is very fundamental concepts of our lives.

"I think it is wonderful."

"As long as I am a sophomore, I think it is alright if it is done in the right way."

"It's a lot of fun."

"It's a real challenge, it's supercool!"

"I think they should have six weeks of it."

"I think ratting in the first and when the freshmen are through, they will be ready for next year."
Student Of The Week
Susan Has "Sudsy" Know-How
BY LAURA FIELSTEEL

SUSAN BUTLER

Many students have come to LaGrange and become actively involved in campus life, but few have shown the mark of leadership as Susan Butler has.

Coming from Panama City Beach, Florida, in 1963, she rapidly made a place for herself. Being a Music Education Major, the drama department has found her useful, "Sudsy", as her friends call her, has played the piano for Bye Bye Birdie. (Dirs. Mary Daniel's roommate and Alice Brown's ideal.)

Maria Enjoy Change of Season  
BY ALISON GRACE

LaGrange College is fortunate in having Maria Salas of Quito, Ecuador here on a student-aid scholarship. A junior, Maria is spending her third year in the United States. On the Rotary Exchange program, she attended Shorter College in Rome, Georgia where she was a member of the Newman Club and graduated from Reinhardt College, where she was a member of Phi Delta and Phi Theta Kappa, a junior college chapter of Phi Delta Kappa. At Reinhardt, she held the position of bilingual secretary as part of her scholarship. At LaGrange, she will work with the Spanish language laboratory.

When asked about ratting at LaGrange, she said, “I have never seen quite this type of ratting before. It is a good tradition in its way, but I believe it can be overdone.” Ratting is an addition in its way, but I believe it can be overdone.” Ratting is something that Maria really enjoys about the life here is the change of seasons; Ecuador remains the same cool climate, with beautiful flowers year round. Quito itself is the capital city, with a population of 800,000. It is situated on 10,000 feet above sea level, in the Andes Mountain range.

Leonard de Andrés, O. P., Florida, said, “I have never seen quite this type of ratting before.
