Quiet week begins Saturday night at 12 midnight. Fraternity or sorority members may not be worn, except for jewelry, and rushes are not to discuss greeks to any members of a fraternity or sorority.

Final plans are now being tied together for this years Homecoming. More in next weeks HTN.

DESIGNATED PARKING AREAS

Last Monday-Wednesday was spent passing out decals and posting signs for the new parking areas. For those of you who still have a question about these areas they are as follows: Area A is for administration in the Quillian Building and Smith. This area is located behind the Quillian Building, Area B is located behind Pitts Dorm and between Hawkins Dorm and Menager. It is for the team students. Area C is behind this gym and is for freshmen and sophomore residence students. Area D is behind Broad Street and Turner Dorm and in front of the cafeteria. It is reserved for Juniors and Seniors. Area E is located in back of Menager and is for faculty members only. These areas are only to affect between 8:00 A.M. and 5:00 P.M. Monday through Friday. Parking violations were beginning last Wednesday for anyone out of their area or not displaying their area letter.

**PI GAMMA MU NEWS**

by Charles Alvord, Reporter

The Pi Gamma Mu, on Friday, October 10, hosted Assistant Professor of Anthropology, Harold A. Huscher of the University of Georgia who presented a slide program on recent archeological digs along the Chattahoochee River in the LaGrange area. Mr. Huscher told the group that at least 100 Indian sites had been surveyed along the Chattahoochee River that would be permanently lost with the completion of the West Point Dam. He said that he would be able to make exploratory and sampling digs in only a few of these sites. Mr. Huscher also said that with the increased superhighway construction and dam building that 90% of the archeological sites in the United States would be destroyed with little or no investigation.

Pre-Holiday Festivities Planned By IFC

Cold weather, tinsel and eggnog will all be part of an "extended" vacation for LaGrange College students beginning on November 26. Thursday night, November 20, a Festival of Lights Celebration or what is more commonly known in Israel as Succoth will open the doors of the dorms here on the Hill. However, the Interfaith Council will sponsor another Festival of Lights on Thursday night, November 20, a Festival of the Christian community a celebration of the "Ingathering" of harvest products.

Succoth serves as a reminder for the Jews of their heritage through the centuries and their dwelling in huts. The festival is actually a harvest in vintage and is the concluding and most important joyful festival of the year. Extending for eight days, Succoth is marked by two commandments: 1) to dwell in the sukkah ( hut) in memory of the historical event of wandering; 2) to take four plants: a citron branch, a palm branch, and a willow branch and recite thanks to God for the fruitfulness of the land. On November 15, the Interfaith Council will build a replica of a sukkah or hut on the "cat-walk" between Smith and Hawkins. The hut will remain there until Thursday.

Calendar of Events

October 30 - Meeting of all students interested in teacher education.

October 30 - College Night Program for area high school juniors and seniors at Ethel Kight High School.

November 1 - Scholastic Aptitude Tests administered by the College Entrance Examination Board.

November 3 - Central Administration

November 5 - Faculty Coffees

November 6 - Fall Play

DR. ANDERSON SPEAKS ON DRUGS

The man who took the late Sir Winston Churchill’s place in the British Parliament spoke four times on the LaGrange College campus last Monday and Tuesday, Get. 20 and 21.

Patrick Jenkinson presented this year’s Arthur H. Thompson Lectures in the area of political science.

Elected as a member of Parliament in 1964 when Sir Winston decided not to seek re-election from Woodford, Jenkinson was re-elected in the 1986 British election.

The British Parliament member spoke on the following topics: “How Parliament Works,” “BRITAIN, EUROPEAN ECONOMIC COMMUNITY OR NORTH ATLANTIC FREE TRADE AREA?,” “GOVERNMENT AND INDUSTRY: CONSERVATIVE AND LABOR PARTY AMBIVALENCE COMPARED,” and “BRITISH ECONOMIC PROBLEMS.”

The Thompson lectures have been presented at the college each year since 1980, endowed by Mrs. Mary W. Thompson of Sand Diego, Calif., an LC graduate, in memory of her husband who served as chairman of the college’s board of trustees.

The lectures bring noted scholars to the college to speak on their respective fields of knowledge, President Henry aid.

After only 12 months in the House of Commons, Jenkinson was appointed by Edward Heath, leader of the Conservative Party, to be an official party spokesman of financial and trade matters. In 1986 he was elected by his colleagues to be vice chairman of the party’s trade committee, and a year later was appointed a member of the “opposition front bench.”

The Thompson Lectures will be continued on page 4.

Dr. Anderson went on to say that he would be interested in student response to the possibility of a seminar involving student members from the science and government departments and students. This seminar would only be held if enough people were interested, so attendants would be interested enough to attend. It may be that many people would prefer to read articles slanted in the direction of their previous biases instead. The HTN fully endorses this seminar and hopes that enough students will participate to make this beneficial to those involved.

This week's editorial is not critical of anything. What it is attempting to do is list of studying a pro and con analysis. This problem is the College's policy of sending home deficiency reports. There are two sides to this story and we shall attempt to examine both. The favorable attribute is that deficiency reports can be sent to the students themselves. This indeed is an intellectual approach to grading, as it allows a faculty member to send deficiency reports to the students' parents. Although this is just a small part of the story, it is attempting to do is that of studying a pro and con situation. The one side is that of mass confusion during quarter and semester breaks. A suggestion has been made to only send deficiencies at mid-term and to have the student body at midterm.

of inducements. I’m sure he
was accused of being divisive,
and the fact is simply that
he was. What’s wrong with
being negative about wrong?
Should we not seek to divide
ourselves from error? To pretend
everything is great, put on
the big smile, sun our eyes from
reality, these may be quite
positive but they are also
guilty. The Status Quo has
already played the accusations
of being negative and of being
a divisive influence at those
who sought to make change.
I expect they always will.

John Wesley, might well have
been accused of a negative
view toward keeping the
religion for the upper class.
He couldn’t seem to see the
positive value of racial
boastful prayers, he can’t see
people. He can’t see the posi-
tive but they are also
positive, he calls you and
turns the tables of the money
side of having the money

When you really get to
looking from the right per-
pective, the Bible is full of
negative and divisive puts you
negative and divisive puts you

FOR WHAT
IT’S WORTH

Hortense
Helps

For those of you who are new
contributors, you will remember
a column run by the
notorious Hortense. Hortense
flourished out several years ago
and after hanging around at a few
odd jobs, turned to come back
to work for the HTN. If you have
any heart breaking, earth shatter-
ing, or just plain about
the bull news just dump it in
Campus Mail addressed to:
Hortense, The Hilltop News.

Hortense won’t promise an
answer but any advice or a
thought will be put forth.

Dear Hortense:
I am a lowly freshman
and feel that I have been discommo-
dated upon by having to park
behind the LC gymnas. What can I
do to avoid this?

Too Far to Walk

Dear TTW:
Your problem is not unique,
I suggest you petition for an
escitator.

Hortense

Dear Hortense:
Several nights ago while
drying my hair I found a $10.00
bill on the floor. I feel very
guilty about not turning it
but don’t know what to do about it.

Sad but rich Sue

Dear Sad but rich Sue

Send the bill to: Hortense,
c/o Campus Mail and I will be
glad to see that it gets to the
proper owner.
Hortense

Dear Hortense:
Several friends of mine
were trying to figure out your
age. One said you were as old
as 40 and another said you were
probably about 16. How old are
you really?

Betty Bea

Dear Betty Bea:
I refuse to answer on the
ground that it may incriminate
me and besides that you might
find out who writes this stupid
column.

**SPORTS**

The Kappa Sigma showed their colors again Thursday in a resounding display of dynamic dexterity against the Sigma Nu’s.

For the Sigma Nu’s, the Minutemen of the intramural football league, there were touchdowns by Darius and James Lee, who, earlier in the game, veered into the air and came down with one of Mason’s terrific interception passes. A point after touchdown was made by Stagg to bring Sigma Nu’s score to 13.

Heritage Courtwright made it across the line for a good six-point credit to the Kappa Sigma. Medicine Man Mason chalked up two touchdowns (Way to go, Mason). And then there’s Steve Shuman, the human bulldozer, who power straight through the middle leaving a trail of dead men back. This time however, he seems to have gotten across the line, flag intact, to give his team a late touchdown. Point after touchdown was made by Sniffy for a score of 25 to 13.

Well, so much for football, or as Shakespeare more appropriately put it, “To run the world away.”

John Cook

CORRECTION AND APOLOGY . . .

In my article of Oct. 16, I stated that Baptist Students had been refused the right to use the Chapel for their prayer meetings. This was stated as reported to me by Baptist students. I am now told that the problem was one of communication. The office of the Dean of Students under- stood the meetings to be business meetings, and the feeling was that the Chapel should not be used for this purpose. I apologize to all who have been confused as a result of the error. Morale: Check you stories and your “they says” before you quote them. Selah
